I conducted my audit in accordance with the Standards on Auditing specified under Section 143 (10) of the Act. Those Standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion on the financial statements.

Cochin Smart City Properties Private Limited Notes to the financial statements

Note 17: Significant accounting policies

1.1 Background

Cochin Smart City Properties Private Limited ('the Company') was incorporated on 11 January 2006 as a private limited company. The registered office of the Company is located at Kochi, Kerala, India. The Company is engaged in the business of dealing real-estate development.

1.2 Basis of accounting and preparation of financial statements

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 ('Act') read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Act, as applicable, Accounting Standards issued by the Institute of Chartered Accountants of India and other generally accepted accounting principles in India. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. All amounts included in the financial statements are reported in Indian rupees, except share and per share data, and have been rounded off to the nearest rupee.

1.3 Use of estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Examples of such estimates include provisions for doubtful debts, future obligations under employee retirement benefit plans, income taxes, post-sales customer support and the useful lives of fixed tangible assets and intangible assets.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

1.4 Fixed assets

Tangible fixed assets are carried at cost of acquisition less accumulated depreciation. The cost of fixed assets comprises the purchase price, taxes, duties, freight (net of rebates and discounts) and any other directly attributable costs of bringing the assets to their working condition for their intended use. Intangible assets are recorded at their acquisition cost.

Advances paid towards the acquisition of fixed assets, outstanding at each balance sheet date are shown under capital advances. The cost of the fixed asset not ready for their intended use before such date are disclosed under capital work-in-progress

1.5 Earnings per share

The basic earnings per share ('EPS') is computed by dividing the net profit after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

The number of shares used in computing diluted earnings per share comprises the weighted average number of shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period unless issued at a later date. In computing dilutive earning per share, only potential equity shares that are dilutive i.e. which reduces earnings per share or increases loss per share are included.

Cochin Smart City Properties Private Limited Notes to the financial statements (continued)

Note 17: Significant accounting policies (continued)

1.6 Provisions and contingent liabilities

The Company recognises a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When the likelihood of outflow of resources, in case of a possible obligation or a present obligation is remote no provision or disclosure is made.

Provision for onerous contracts i.e. contracts where the expected unavoidable cost of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognised when it is possible that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event, based on a reliable estimate of such obligation.

1.7 Cash flow statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.
